HSBC. Ltd.

Respected Sir/Madam,

I was excited to learn about Software Engineer position with HSBC Ltd. posted on your company website and would greatly appreciate your considering my placement in this role. I've closely reviewed the needs and requirements for this role and believe that my qualifications have prepared me to contribute immediate value to your organization.

While in university, I worked hard to hone my software engineering and programming skills. I am proficient in languages like C, C++, Java and subjects like DSA, Databases. Along with this I know backend development in Django Framework and NodeJS. I am a Cloud Enthusiast and I love participating in various Hackathons for social cause. I am focused and attentive to detail when addressing high-volume task loads to meet deadlines. I am inspired by making a positive impact by applying software development skills and my problem-solving abilities allow me to address challenges to achieve results.

My academic experiences have served me well in developing my leadership, decision-making, and motivation skills. I work well to use clear and concise communication to interact professionally with co-workers, supervisors and customers. I look forward to speaking with you regarding my skill set and attributes which I believe will serve as an asset to support HSBC Ltd.'s goals. Please take a moment to review my attached resume. Thank you for your time and consideration.

**Sincerely,
Deepak S. Patil**
